### **DETAILED ACTION**

Applicant's arguments/Appeal Brief received on 27 June 2006 has been fully considered. Claims 3-19 and 21 are therefore allowed with the additional limitations included.

#### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Raja Saliba (Reg No 43,078) on 09 August 2006.

#### **The application has been amended as follows:**

Claim 20. (Cancelled)

#### ***Examiner's Statement Of Reasons For Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest a module for compensating chromatic dispersion in a line optical fiber including all of the limitations as claimed by Applicant. Applicant claims a specific compensation ratio for the center wavelength as well as different kinds and lengths of compensation optical fibers, specific non-overlapping spectral bands and the combination and replacement of different lengths of optical fibers placed together in a single optical fiber line.

Furthermore, See Applicant's Appeal Brief received 27 June 2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
